FEATURES

Depending upon the initial temperature and what tin is used, one 14 g tablet will bring to the boil 500 ml of water in approx. 7 minutes.

- Non-explosive
- Does not liquify when burning
- Ignites with match or lighter
- No sparks
- Strong heating output
- Leaves almost no ash after burning
- No visible smoke
- Lightweight and compact
- When properly stored, Esbit solid fuel maintains its full functionality for many years
- Safety and Handling: Material Safety Data Sheet (MSDS) is available on request

R & D

Research and constant innovation ensure that Esbit Compagnie and Gummi-Noller (manufacturer) continue to offer new products to all their clients world-wide.

Our knowledge and experience also make it possible to provide you with market insight, technical expertise and product development know-how. We have developed our knowledge in the field of solid fuel tablets/cooking systems for now more than 70 years.

The practical solutions help you to improve and enhance existing products, or create completely new ones, with great efficiency and cost effectiveness.

Take advantage of the expertise of one of the world's leading solid fuel specialists.

TECHNICAL DATA - SOLID FUEL

Substance	Hexamethylenetetramine
UN No.	1328
Calorific Value	31.300 KJ/Kg
Color	white

Made in Germany

ESBIT Compagnie GmbH
